

ASIM ALIZADA

Senior Software Engineer

asim.alizada.dev@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Senior Software Engineer with 6+ years of experience building full-stack, cloud-based platforms using .NET, Node.js, React, Next.js, and Angular. Experienced in microservices, distributed systems, integrations, release management, and production-ready software delivery across cybersecurity, fitness, energy, EdTech, and enterprise products.

SKILLS

Backend: .NET (Core) • Node.js • NestJS • REST APIs • GraphQL

Frontend: React • Next.js • Angular • TypeScript • Micro-frontends

Data: PostgreSQL • MongoDB • SQL Server • MySQL • Prisma • Entity Framework

Cloud/DevOps: AWS • Docker • Kubernetes • CI/CD • Cloudflare • Azure

Practices: Microservices • Distributed Systems • Event-Driven Architecture • Clean Architecture

EXPERIENCE

Lead Software Engineer, Webidea – Remote, USA

Feb 2026 – Present

- Led full-stack development for a cloud-based fitness platform, covering backend services, product workflows, and frontend delivery.
- Designed scalable APIs and integration-ready services across core platform features.
- Owned release management, CI/CD workflows, and cloud deployments across Railway, Cloudflare, and GitHub.
- Standardized service architecture, environment configuration, and production deployment practices.

Senior Software Engineer, Cymulate (via Progressocore) – Remote, USA

Apr 2025 – May 2026

- Built full-stack features using NestJS, Prisma, React/Next.js, and micro-frontends for cybersecurity testing workflows.
- Designed a dynamic ITSM integration framework for Jira and ServiceNow with configurable auth, fields, statuses, and ticket rules.
- Developed a .NET endpoint agent deployed in customer environments to simulate and validate security controls.
- Integrated enterprise security platforms including Devo, Zscaler, Wiz, Sophos, and Microsoft Entra ID.

Software Engineer, Simplicity Group (Contract) – Remote, France

Aug 2025 – Apr 2026

- Developed .NET/Angular features for an Energy Management System, improving device monitoring workflows.
- Implemented Google Maps-based device tracking with custom markers and real-time visualization.
- Built background workers, event-driven processing, and MinIO/local file storage with signed URL access.

Software Engineer, TayqaTech – Baku, Azerbaijan**Aug 2023 - Apr 2025**

- Developed CRM, Sales, Workplan modules using .NET Core and Angular for internal business operations.
- Integrated ERP platforms and internal services to automate data exchange across enterprise systems.
- Built an internal low-code platform for faster creation and management of business applications.

Software Engineer, TechBridge Solutions – Baku, Azerbaijan**Jun 2022 - Aug 2023**

- Built end-to-end session management and incident detection features for an EdTech LMS, applying the logic across .NET and NestJS microservices.
- Developed Angular dashboards and React/Next.js applications for teacher and student workflows.
- Integrated Stripe, PayPal and local providers, and supported Docker/AWS-based deployments.

Junior Software Engineer, InsureSoft – Baku, Azerbaijan**Jun 2021 - Jun 2022**

- Developed enterprise business modules using .NET and ASP.NET MVC to support operational workflows.
- Integrated biometric attendance and external services via REST/SOAP APIs.

Junior Software Engineer, SmartSoft Technologies – Baku, Azerbaijan**Feb 2020 - Jun 2021**

- Built real-time Angular dashboards with SignalR/WebSockets for live data monitoring.
- Developed .NET jobs, Python components, and REST APIs for data processing and classification.

Part-time IT Instructor, Academy of Public Administration (APA) – Baku, Azerbaijan**Sep 2020 - Oct 2023**

- Taught C#, .NET Core, Web API, and Angular through project-based training.

EDUCATION**MSc in Information Systems Security**

The Academy of Public Administration, Baku, Azerbaijan.

2023 – 2025 | **GPA: 94.8/100 (4.0/4.0)****BSc in Computer Science**

The Academy of Public Administration, Baku, Azerbaijan.

2019 – 2023 | **GPA: 94.3/100 (4.0/4.0)**
